

lenguaventura

Summer camps for teens
aged 14-17 years

in Tarifa, Spain

ABOUT US

Since 2003 Lenguaventura has been organising summer camps for teenagers between the ages of 14-17 years. Our motivation is to bring together young people from many different nationalities who are interested in learning or improving languages, practicing sports, experiences new adventures and having fun getting to know teens from all over the world. The Founder and Manager of Lenguaventura is Irene Weiss from Switzerland who is supported by a strong, patient, sporty, creative and responsible team of group leaders with pedagogical background. Also by teachers, chefs, cleaning staff, bus drivers and specialised instructors for all activities.

ABOUT THE CAMP

Our Camp promises an active holiday where the mobile phone is overlooked and communication with friends is more important. The teens are driven by team spirit and desire for adventure. Every day is different and our planning offers many surprises. Come and join us and be creative - dance, laugh, learn and jump over a hurdle, if necessary.

ABOUT TARIFA AND THE ACCOMMODATION

Tarifa is a town in the most southern point of Spain and actually the most southern point of Europe. The weather on the coast of light ensures many sunny days throughout the year with high winds perfect for watersports. Many visitors fall in love with Tarifa because of its beautiful, endless beaches where different watersports can be practised, particularly kitesurfing and windsurfing.

In the old town there are various small, independent shops selling tasteful clothes, jewellery and unique souvenirs. The beach promenade invites to enjoy a walk or to practise skateboarding. All you need in the summer is to spend your holiday in Tarifa where you will find a relaxed lifestyle.

Since we started the programme our campers have stayed in a school residence. It is a hostel style accommodation in the town centre. Its great location allows us to easily walk to the old town and beaches, whilst living in a relaxed environment, as we have everything we need on site.

Campers will enjoy full-board dining (three meals and a snack) each day. The teens lodge in bedrooms with a maximum of 3 people per room. Our accommodation has all amenities to enjoy camp life and gathering with friends.

ABOUT OUR PROGRAMME LANGUAGE AND ACTIVITIES

We think that language learning is important in our global world. Young people still have the ability to learn languages without too much effort, so we offer Spanish or English classes to all our campers on several skills levels. Our teaching method is more focused on working on projects and on communication skills.

The wide selection of activities in the afternoon is one of the highlights of our Tarifa camps. Kitesurfing and windsurfing are a strong draw for teens to visit the camp but now with our adventure camp we can offer another attractive nature programme.

KITESURF – AND WINDSURF CAMP

Our kitesurfing and windsurfing courses have developed over the last few years. With our experienced team of staff, we can offer courses to all different skills levels, so whether a student is highly skilled on the water and only needs gear and supervision or simply interested in trying the sport out for the first time, Lenguaventura camps have the right offer to suit their needs.

Previously a secondary sport to kitesurfing within the camp, windsurfing has returned to its popularity in the last few years with many teenagers visiting for this alone.

ADVENTURE CAMP

Our adventure programme offers campers the opportunity to earn an eco-citizenship award. To be in the nature and being able to move in the nature and get to know some surviving skills, which is great life knowledge to be utilised. The opportunity to disconnect from electronic devices for a few hours and just enjoying the quietness or the natural noises from waterfalls and birds is more rewarding and enjoyable than young people can imagine.

In Lenguaventura all teenagers will find the programme best suited to them. We offer the possibility to change the chosen activity, but only after one week. During a two weeks' stay the students can practise a week of water sports (kitesurf or windsurf) combined with another week of adventure. For a longer stay, they can determine the length of stay in each programme.

All activity programmes (kitesurfing, windsurfing or adventure) are complemented with fieldtrips and visits to interesting places as well as outings with further opportunities to practise sports. Our priority is that our campers have an unforgettable diversified summer vacation!
